Art Unit: 3682

Allowable Subject Matter

1) The following is an examiner's statement of reasons for allowance: The prior art does not teach the claimed bearing features used in combination with a pinion shaft, wherein an outer ring formed with large diameter raceway and a small diameter raceway, an inner ring formed with large diameter raceway and a small diameter raceway, a plurality of balls positioned between respective raceways, clearances on the two large diameter raceway surfaces and clearances on the two small diameter raceway surfaces are different in such a manner that upon applying a load on the pinion shaft, the row of balls on the anti-pinion gear side of the two rows of balls is subjected to the load prior to the row of balls on the pinion side. Accordingly, claims 1-10 are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Joyce whose telephone number is (571) 272-7107. The examiner can normally be reached on Monday - Thursday 7:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Richard Ridley can be reached on (571) 272-6917. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
